## INTRODUCING PIA

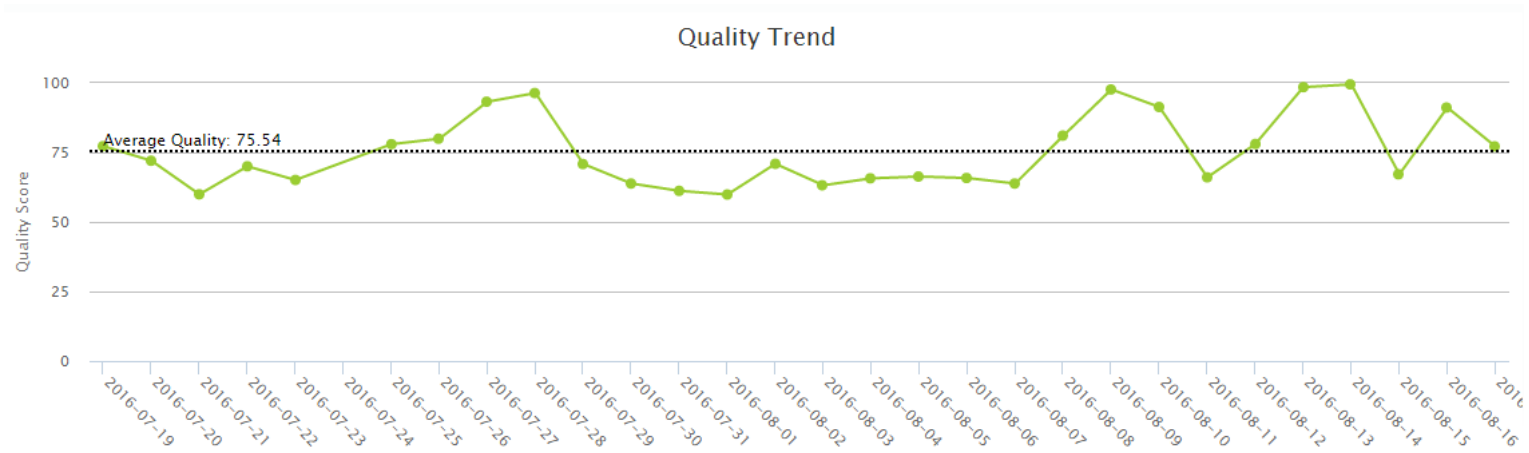

Who is **Insentra**?

**Predictive Insights and Analytics** is a service that empowers you with meaningful insights and analysis to:

- Predict future outages before they even happen
- Effectively manage and plan your IT environment
- Proactively resolve issues before your business is impacted
- Improve end user experience and productivity

# 03

## HOW WE DO THIS

- **Remote** monitoring with industry leading tools
- **Integrated** with your current platform – virtualised or physical. Windows and Linux
- **Proactive non intrusive testing** of your environment with virtual and production users
- **Customised** reporting **tailored** to your business

# 04
